

## **Spectralink Receives 2017 INTERNET TELEPHONY Product Of The Year Award**

*PIVOT:SC enterprise smartphone recognized for industry innovation and quality*

BOULDER, Colo. January 23, 2017 — Spectralink Corporation ([www.spectralink.com](http://www.spectralink.com)), the global leader in enterprise mobility solutions for the healthcare, retail, and manufacturing sectors, announced today that [TMC](#), a global, integrated media company, has named the PIVOT™:SC (8744) enterprise smartphone as a recipient of the 2017 INTERNET TELEPHONY Product of the Year Award. These awards recognize the most innovative and highest quality IP communications brought to market, or updated, in the past year.

Based on the Android™ platform, the [Spectralink PIVOT:SC](#) incorporates a slim, streamlined design that integrates with Google™ Mobile Services (including Google Play™ and other Google applications) and XML applications. Purpose-built for enterprise use, the reliable and secure PIVOT:SC empowers mobile employees to stay connected as they move throughout their workplaces, offering exceptional voice clarity and coverage. The PIVOT platform brings together an end-to-end mobility solution by integrating mobile data applications, security, UC telephony and Wi-Fi networking. Spectralink recently added a dual-mode camera/barcode scanner to the PIVOT:SC to further optimize its use in the Healthcare, Retail, Manufacturing, and Hospitality industries. This new enhancement allows users to switch easily from camera to scanner mode, offering both capabilities in one streamlined unit without the burden of additional weight from dedicated barcode scanning hardware.

“Spectralink is honored to have the PIVOT:SC recognized for the 2017 INTERNET TELEPHONY Product of the Year Awards,” said Ashish Sharma, CMO of Spectralink. “Mobility is driving new efficiencies in the workflows of our enterprise customers globally. Our R&D team continues to work hard to deliver value-added features for our customers.”

“It gives me great pleasure to recognize Spectralink with a Product of the Year Award for 2017. I have always been impressed with their commitment to excellence and

innovation,” said [Rich Tehrani](#), CEO, TMC. “In the opinion of our distinguished judges, the PIVOT:SC has proven to be among the best IP communications solutions available on the market. I look forward to continued innovation from Spectralink.”

### **About Spectralink Corporation**

Spectralink leads the enterprise mobility market with industry’s most deployed mobility solution portfolio optimized for mission critical healthcare, retail, manufacturing and hospitality applications. As the enterprises transition to mobile workflows, Spectralink is at the forefront of the industry transformation through its innovative end-to-end mobility portfolio. Designed for challenging RF environments, our mobile solutions enable enterprises to streamline their workflows and deliver a positive customer experience. To protect our customers’ investments in UC platforms, we offer the best interoperability in the industry with the leading call control platforms. Since 1990, Spectralink has deployed millions of mobile devices worldwide – providing enterprises with the industry’s most reliable, high quality and secure mobility solutions.
