Jeron Electronic Systems, Inc.

A leader in communications systems for the healthcare industry, Jeron Electronic Systems, Inc. is the engineering and manufacturing force behind Provider Nurse Call systems.

Jeron's line of Provider® Nurse Call systems facilitate communications, speed response times and integrate with a wide spectrum of alerting and notification technologies, all focused on delivering the highest levels of patient care. From its founding in 1965, Jeron has earned a solid reputation for innovation, quality and service.

Jeron Provider 790 Integration with Spectralink Wireless Handsets

The Jeron/Spectralink integration routes patient calls directly to their assigned caregiver's wireless phone. From their Spectralink handset, the caregiver can answer a patient's question directly or find out what is needed before coming into the room; saving extra steps and time. Nurse Call integration to Spectralink wireless handsets offers:

- A quieter healing environment by reducing overhead pages to contact staff
- Enhanced staff mobility; caregivers can receive their patient's calls anywhere on the nursing unit or throughout the facility
- Streamlined staff-to-staff and patient -to-staff communication for both increased patient and staff satisfaction
